Decision 1/CP.18

Agreed outcome pursuant to the Bali Action Plan

The Conference of the Parties,

Recalling decisions 1/CP.13 (Bali Action Plan), 1/CP.15, 1/CP.16 and 2/CP.17,

Acknowledging the significant achievements of the Ad Hoc Working Group on Long-term Cooperative Action under the Convention towards enabling the full, effective and sustained implementation of the Convention,

Welcoming the new institutional arrangements and processes established as a result of the work of the Ad Hoc Working Group on Long-term Cooperative Action under the Convention and the progress made in making them operational and effective,

Determined to fully implement the agreements reached and further enhance long-term cooperative action under the Convention in order to achieve its ultimate objective,

Welcoming decision 1/CMP.8 on the Doha Amendment to the Kyoto Protocol pursuant to its Article 3, paragraph 9, as well as decision 2/CP.18 on Advancing the Durban Platform,

Noting that this decision, together with decisions adopted by the Conference of the Parties at its sixteenth and seventeenth sessions, constitutes the agreed outcome pursuant to decision 1/CP.13,

I. A shared vision for long-term cooperative action, including a long-term global goal for emission reductions, to achieve the ultimate objective of the Convention, in accordance with the provisions and principles of the Convention, in particular the principle of common but differentiated responsibilities and respective capabilities, and taking into account social and economic conditions and other relevant factors

Recalling the principles, provisions and commitments set forth in the Convention, in particular its Articles 2, 3 and 4,

Also recalling decisions 1/CP.13, 1/CP.16, 1/CP.17 and 2/CP.17,

1. Decides that Parties will urgently work towards the deep reduction in global greenhouse gas emissions required to hold the increase in global average temperature below 2 °C above pre-industrial levels and to attain a global peaking of global greenhouse gas emissions as soon as possible, consistent with science and as documented in the Fourth Assessment Report of the Intergovernmental Panel on Climate Change, reaffirming that the time frame for peaking will be longer in developing countries;

2. Also decides that Parties’ efforts should be undertaken on the basis of equity and common but differentiated responsibilities and respective capabilities, and the provision of finance, technology transfer and capacity-building to developing countries in order to support their mitigation and adaptation actions under the Convention, and take into account the imperatives of equitable access to sustainable development, the survival of countries and protecting the integrity of Mother Earth;
3. Welcomes the work done by the Ad Hoc Working Group on Long-term Cooperative Action under the Convention on equitable access to sustainable development through a workshop and the report on the workshop\(^1\) by the Chair;

II. Enhanced national/international action on mitigation of climate change

A. Measurable, reportable and verifiable nationally appropriate mitigation commitments or actions, including quantified emission limitation and reduction objectives, by all developed country Parties, while ensuring the comparability of efforts among them, taking into account differences in their national circumstances

Recalling decisions 1/CP.13, 1/CP.16 and 2/CP.17,

Noting with grave concern the significant gap between the aggregate effect of Parties’ mitigation pledges in terms of global annual emissions of greenhouse gases by 2020 and aggregate emission pathways consistent with having a likely chance of holding the increase in global average temperature below 2 °C or 1.5 °C above pre-industrial levels,

Acknowledging the role of biennial reports and international assessment and review in measuring progress towards the achievement of quantified economy-wide emission reduction targets,

Also acknowledging the work done under the Subsidiary Body for Scientific and Technological Advice to finalize reporting and review guidelines for developed country Parties,

4. Takes note of the quantified economy-wide emission reduction targets to be implemented by Parties included in Annex I to the Convention as communicated by them and contained in document FCCC/SB/2011/INF.1/Rev.1;

5. Requests the secretariat to update document FCCC/SB/2011/INF.1/Rev.1 following any developed country Party’s request to include new information on its target;

6. Notes the outcomes of the process of clarifying the quantified economy-wide emission reduction targets of developed country Parties during 2011 and 2012, as reflected in submissions from Parties, the reports on the relevant workshops and the technical paper prepared by the secretariat;\(^2\)

7. Urges developed country Parties to increase the ambition of their quantified economy-wide emission reduction targets, with a view to reducing their aggregate anthropogenic emissions of carbon dioxide and other greenhouse gases not controlled by the Montreal Protocol to a level consistent with the ranges documented in the Fourth Assessment Report of the Intergovernmental Panel on Climate Change and subsequent Assessment Reports;

8. Decides to establish a work programme under the Subsidiary Body for Scientific and Technological Advice to continue the process of clarifying the quantified economy-wide emission reduction targets of developed country Parties, particularly in relation to the elements contained in decision 2/CP.17, paragraph 5, with a view to:

Also recalling decisions 1/CP.13, 1/CP.16 and 2/CP.17,

Noting with grave concern the significant gap between the aggregate effect of Parties’ mitigation pledges in terms of global annual emissions of greenhouse gases by 2020 and aggregate emission pathways consistent with having a likely chance of holding the increase in global average temperature below 2 °C or 1.5 °C above pre-industrial levels,

Recalling decision 2/CP.17, in which developing country Parties were encouraged to develop low-emission development strategies, recognizing the need for financial and technical support by developed country Parties for the formulation of these strategies,

Taking into account national economic and social circumstances of Parties included in Annex I to the Convention undergoing the process of transition to a market economy and the need to enable them to continue their economic development in a sustainable, low-emission manner,

Recognizing that most of these Parties currently still lack the financial resources to be able to provide support to Parties not included in Annex I to the Convention for meeting their costs of mitigation, adaptation, technology transfer and capacity-building,

Recognizing that various actions to address climate change can be justified economically in their own right and can also help in solving other environmental problems,

Decides that a certain degree of flexibility shall be allowed to Parties included in Annex I to the Convention (Annex I Parties) undergoing the process of transition to a market economy with regard to the provision of new and additional financial resources, technology transfer and capacity-building to Parties not included in Annex I to the Convention (non-Annex I Parties) in order to enable them to enhance their implementation of mitigation and adaptation actions, and that this flexibility shall be extended until 2020, when a protocol, another legal instrument or an agreed outcome with legal force under the Convention applicable to all Parties comes into effect;
