INSTITUTIONNAL ARRANGEMENTS FOR FOREST GOVERNANCE IN CENTRAL AFRICA

Martin TADOUM
COMIFAC Executive Secretariat
Background

Forest governance is strongly linked to global issue of SFM: awareness raising at the global level at early 1990 (Rio Summit, World Bank, EU, ...)

**In Central Africa**

- Revision of Forest legal framework (forest law) at country level and creation of a ministry in charge of forest in many countries (1994-2000)
- Holding of the 1st Summit of the Heads of State of Central Africa on Conservation and SFM in March 1999 (Yaounde Declaration) and creation of COMIFAC in 2002
Institutionnal Arrangements – Sub regional level

1. Institution for coordination and capacities building: COMIFAC

✓ Setting-up 4 thematic working group with particularly a working group on forest governance (2013) which comprises 5 experts committees (legality & certification, transparency and fight against corruption, policy & legislation, informal & artisanal sector, decentralized forestry)

✓ Adoption of sub regional Agreements and Directives: Accord on forest control, Directives on the participation of local communities, indigenous people and NGOs to SFM, ...

2. Promotion of the participation of all stakeholders to SFM: CEFDHAC

✓ Creation of national forum as national platform of discussion, sharing experiences and lessons learnt of all stakeholders

✓ Existence of sub regional networks on thematic issues or stakeholders categories: Parlementarians, Women, Youth, Indigenous and local populations, green economy, ...
Institutionnal Arrangements – Country level

1. Planning, monitoring & coordination: Ministry in charge of forest in all countries

2. Enhancement of legality: VPA/FLEGT with EU (Cameroon, Congo, CAR)

3. Promotion of transparency: commette to fight against corruption & forest control independant observatory (Cameroon), commission of attribution of forests licenses (Cameroon, Gabon)

4. Implementation of participative approaches: many stakeholders platforms with CSO and governments
Challenges

1. Sub regional level: long-lasting of forest governance working group and others platforms (funding difficulties, dynamism and motivation of the members, ...) 

2. National level: mainstreaming of sub regional tools to national frameworks, respect/full implementation of law and regulations, Strengthening the efficiency of the existing committees/Platforms or setting-up the appropriate committees, ...
COMMISSION DES FORETS D’AFRIQUE CENTRALE

Une dimension régionale pour la conservation et la gestion durable des écosystèmes forestiers
