

ATTACHMENT 2: LIST OF AGREED KEY ISSUES

STREAM 1 – FOREST MANAGEMENT POLICIES AND LAND USE PLANNING

Stream leaders and coach

Leaders: WRI (World Resource Institute) and COMIFAC Governance Working Group

EU Facilitation Team Coach: Emmanuel Heuse

Relevant COMIFAC and EU Facilitation references

- Axis 2 of the revised COMIFAC Convergence Plan 2015-2025: *Gestion et valorisation durable des ressources forestières*
- EU Facilitation Roadmap 4.2.2: Addressing the impact of non-forestry sectors and related land-use decisions on the Congo Basin Forests

Key Issues to be addressed

- Managing forests beyond timber and wildlife: in need of a new Sustainable forest management (SFM) paradigm
 - Coping with the effects of the growing commodity boom on forested lands
 - Old style logging permits returned to state domain
- Using forest monitoring tools to guide policy decisions
- Establishing a common approach to land use planning under REDD+ schemes? A discussion
- Land use planning at the local level: building on the experience gathered in the different countries of the sub region
- Applying the landscape approach at the regional / provincial administrative levels: a review of opportunities and challenges for sustainable development
